SUMMARY

Unity developer with 4+ years building mobile and WebGL games in C#. Maintains Mystic Motors, a live multiplayer racing game (10K+ Google Play downloads) with Firebase, in-app purchases and a .NET game server; previously led a team of 6 developers on client projects.

EXPERIENCE

Senior Unity Developer · Tec Ventures

Apr 2024 – Present

- ▶ Develop and maintain Mystic Motors (Android and iOS), a live multiplayer racing game; ship feature updates after launch.
- ▶ Fixed launch-period crashes and null-reference errors across successive updates using Crashlytics reports.
- ▶ Specified, integrated and deployed a .NET game server (matchmaking, anti-cheat checks) hosted on DigitalOcean; tested APIs with Postman.
- ▶ Implemented Google, Apple and guest sign-in (Firebase Auth), Firestore, FCM push notifications, Crashlytics, in-app purchases (Android, iOS) and AdMob ads.
- ▶ Built game UI from Figma designs with DOTween animation.
- ▶ Used Unity Profiler to trace frame spikes to string allocations, extra rendering and high draw-call counts, and optimised them.

Unity Developer / Team Lead · Abhiwan Technology Pvt Ltd

Oct 2022 – Mar 2024

- ▶ Promoted to Team Lead; led a team of 6 developers for about 6 months on client Unity projects.
- ▶ Built Unity games and apps for clients across mobile and PC.
- ▶ Classroom Metaverse: virtual classroom where students and teachers join together, built with Photon and Agora Voice SDK.

PROJECTS

Mystic Motors — Android & iOS | Unity 3D · C# · Firebase · .NET Server · AdMob

[Play Store](#)

Spell-based multiplayer racing game with real-time PvP, clans, chat and cosmetics. 10K+ downloads on Google Play.

Adventure Trip: World Wonders — Google Play | Unity 3D · C# · Firebase · FCM

[Play Store](#)

Client project, built solo. Educational puzzle game across 20 world-wonder locations with 7 mini-puzzles; Firebase cloud save and FCM notifications.

Kitty Dash — Google Play | Unity 3D · C# · Addressables · AdMob

[Play Store](#)

Client project, built solo. Endless runner with content loaded through local Addressables.

Slot Game — Live WebGL (Browser) | Unity 3D · C# · WebGL · DOTween · Figma

[Live Demo](#)

Original browser slot game demo: core game logic in C#, DOTween reel animations, UI built from Figma designs.

TECHNICAL SKILLS

Engine & Language: Unity 3D / 2D · C# (primary) · C++ · Unity WebGL · Unity Addressables

Multiplayer & Network: .NET Game Server · Photon PUN2 · WebSocket · Agora Voice SDK

Backend & Auth: Firebase Auth · Firestore · FCM · In-App Purchases · AdMob · REST API · Google/Apple Login · DigitalOcean · Postman

UI/UX & Design: Figma · UI/UX Design · DOTween

AI-Assisted Development: Claude Code · OpenAI Codex · Unity MCP · Unity CLI

DevOps & Tools: Git · Firebase Crashlytics · Unity Profiler · Android Studio · Xcode

Platforms: Android · iOS · PC · WebGL

Learning: ASP.NET Core · API development

EDUCATION

BCA · Hi-Tech Institute of Engineering & Technology

2020 – 2023 · 70%

Intermediate (PCB) · P.C. Senior Secondary School

2020 · 75%
